1. Background

As per the Government Resolution published on 19th October 2020 by General Administration Department (GAD), eoffice will be implemented in order to increase efficiency, effectiveness and transparency of governmental transactions and processes. GR document also details out departments shortlisted for implementation of eoffice in first phase along with the roadmap for implementation.

1.1 About eoffice

eoffice is a digital workplace solution developed by National Informatics Centre (NIC) which aims to usher in more efficient, effective and transparent inter-government and intra-government transactions and processes.

1.2 Benefits of eOffice:

Enhance transparency

Increase accountability

Assure data security and data integrity

Promote innovation by releasing staff energy and time from unproductive procedures

Transform the government work culture and ethics

This document details out the guidelines for implementation of eoffice in all the departments/ sub-departments under Government of Maharashtra.

I'm not sure about that.

4. Process of eOffice Login:

4.1 Parichay (Single Sign Authentication)

Introduction: Parichay is developed by NIC and currently this is integrated by eOffice application. Parichay is Single Sign Authentication (SSO). This manual contains the Step-by-Step process of understanding how to login to Parichay with different ways of authentication. For any user logging in for the first time, this is an extremely helpful document. Once you understand the ways of login, you may refer to Parichay User Manual for understanding the entire application.

4.1.1 HOW TO LOGIN TO PARICHAY?

Supported Browsers Internet Explorer/Mozilla Firefox or Chrome

Put this URL: <https://mahaeoffice1.maharashtra.gov.in> into url bar (Mahaeoffice site will redirect into Parichay website for Authentication)

Enter the credential (Username and Password). Username should be in the format of "userid@domainname" (Example: test@nic.in). You may select 'Stay signed in' checkbox to extend the session expiration time to 24 hrs (Default Parichay session expiration time is 12 hrs). Click 'Next'.

5. Scanning Guideline for external Files:

5.1 Prepare Documents:

Closed or Recorded/Active physical files will be scanned as and when they are moved into an eFile.

e

Unpin / unstaple documents, if any (The staple pins and other pins that are binding the document set will be removed at this Step and each set will be examined for the same at least twice)

Stick Photographs with glue (in case there are any stapled photographs, remove them and stick them with glue. This needs to be done very neatly

Dusting of the document (Removing any unwanted dust which may affect the quality of the image, from the documents)

Page Numbering-Each page of the document is numbered on the corner. This helps in maintaining the count and also in avoiding any misplaced sheets of any document during the course of file movement etc.

Clip the document set

5.2 Important Points to Take Care:

e Make sure that the scanned documents are readable.

e Collect the originals from the scanner collate and clip the documents once again. e All the physical records (per connection) shall be bound in a file.

e If DPI (Dots Per Inch) is more, photo is sharp but the size of the file is more.

e If DPI is less, photo is dull but the size of the file is less

5.4 Important Note:

e Resolution should be set to 200 Dpi for Handwritten/Poor Visibility and 150 Dpi for Printed

Paper /Clean Paper for both Note sheet and Correspondence/Dak

e Image Should be set to black and white drawing(Not grey scale, Not Color) 5.5 How to select files to be scanned? This section outlines the guidelines to be followed by the assistant who will be responsible for scanning the files that are in processing and for files that are closed. a. Current files — Current files are those which are currently in circulation/ in use. They deal with cases that are open and decisions on the issues being considered in them are yet to be finalized. An active file may contain many documents or a few documents depending on its use.

b. Closed/Recorded files — Files are marked as closed/recorded once all actions are complete on the file and the Section Officer gives his approval for closing the file. Closed files have no outstanding fair communications to be issued and no further action due.

Closed files/Recorded files will be scanned as and when they are referenced. 6. Process for eoffice implementation 6.1 Overview The step by step process to be followed by the departments for implementation of eof office is as follows: Appoint Conduct Coordinate for implementation task fees infrastructuregap

6.2 Detailed processes

The detailed processes for implementation of eoffice are as follows:

6.2.1 Appoint implementation task force:

e Every department will have to nominate an implementation task force for eoffice consisting of Nodal Officer and IT support team

e@ The implementation task force will be responsible for end to end implementation of eoffice in their respective department's right from conducting infrastructure gap analysis to conducting review meetings to track the implementation status. Preferred criteria and detailed roles and responsibilities of each member of implementation task force is defined in Annexure 1

6.2.2 Conduct infrastructure gap analysis

e Implementation task force shall conduct review of existing infrastructure in the department such as number of personal computers, connectivity, scanners, printers, etc. and determine procurement requirements, if any basis the review.

e Apart from these, implementation task force shall also review current status of Employee Master Detail (EMD), Digital Signature Certificate (DSC) and NIC e-mail address for all the employees in the department

e Implementation task force shall coordinate with the concerned teams/ departments for addressing the requirements and ensure that all the hardware and software requirements are fulfilled prior to implementation

6.2.3 Coordinate for training sessions on eoffice e Coordinate with DIT for conducting training sessions on eoffice and its features for all the employees in the department as per defined schedule e Maintain a tracker to ensure all the employees have attended the training session

6.2.4 Complete initial set-up process e Send EMD document filled as per the defined template to DIT e Post verification and data validation, DIT will complete organization set-up and create users as per EMD submitted by the department e Conduct preliminary testing for employee profile, file heads, Organization Unit (OU) and user log-in. Report any discrepancies observed to DIT (support team)

6.2.5 Implement eoffice e Post completion of the initial set-up, department can go-live with eoffice. Users can now create new files on eoffice as well as upload existing scanned physical files as per guidelines e Users can reach out to the departmental support team or DIT support team for any help

6.2.6 Conduct internal review meetings to track implementation e Nodal officers will conduct review meetings with the department on a regular basis to track the implementation of eoffice e In-case of any challenges, nodal officers can reach out to the DIT support team
