

Artificial Intelligence (AI), Marathi language technology, Natural Language Processing (NLP) 4 Natural Language Understanding (NLU) for the use of government.

Maharashtra government

---

Department of Information Technology (DIT)

---

Government circular number: GAD-AlcH0219/9/2020-0/0 DIT (MH)

---

Ministry, Mumbai - 400032.

---

Date: 03 March, 2020

---

The Preamble -

---

Artificial intelligence is an emerging technology.

It helps to solve complex business and administrative problems.

The use of emerging technologies to identify, learn, plan and use human-like languages

We know that technology can be used to solve problems.

Efficiency can save time. Machine learning and deep learning can make decisions.

It can be used to build capacity and solve complex problems.

Government Circular issued to facilitate the use of technology in government functioning

It was the government's decision to do it.

Government circular -

The whole functioning of the government is done in Marathi and it is used effectively.

The Department of Information Technology is using artificial intelligence technology for Marathi language.

The decision to do is to translate Natural Language Understanding (Input) through artificial intelligence using Natural Language Processing.

(output) will be made.
